

## Scottish Night of Miles

### Results of the One Mile Race Walk, 20 December 2008, Newtown Park, Wellington

This race almost did not eventuate. Torrential rain in the morning meant lots of prayers were being sent to the Weather Gods. They must have been heard for the rain eased to showers by 3.00pm and by the time the meeting started at 5.00 pm the sun was shining. However it remained cold with gale force winds and times for all races were down.

Peter Baillie who is still nursing an injury was pleased to get round the still wet track in what was his slowest mile race in four years. Alison Samson showed some of the speed she is capable of and had a confidence re-building effort after her disappointing race at the NZ Secondary Schools Champs. Jan Blikendaal held on to Alison for a few laps but slipped back after half way.
